Instructions for Submitting Documentation

- Upload, fax or mail the original pages, not a copy. **Return all pages of this form.**
- Include any required documentation after the pages of this form.
- If you fax your information, do not include a cover sheet.
- If your authorization requires a notary public's signature and the notary used a raised seal instead of an ink stamp, shade the seal lightly with a pencil before you scan it for upload or send it by fax. This is so that the seal can be seen on the scan or fax. If the seal cannot be seen, your authorization will be incomplete and will not be accepted.
